

CHANGING THE FEW
WHO CHANGE THE MANY

The A3 Leader Development Model

OUR INTEGRATED CURRICULUM

A3 utilizes an interwoven curriculum that focuses on fourteen strategic areas of leadership, church growth and church multiplication. These strategic areas are covered in a variety of ways depending on the needs and situation of the participants and on the availability of faculty. This curriculum is one of the ways we are changing the few who change the many.

1 DEVELOPING THE LEADER

Purpose, Vision & Philosophy of Ministry

Laying a personal ministry foundation

Vision is given by God but is based on values and purposes. These form a church's Philosophy of Ministry upon which strategy and goals are based.

Leader Formation

Understanding how God calls, equips, and shapes a leader

God works in the lives of people to make them into leaders He can use. Understanding how God forms leaders provides participants with vital perspective on their lives and ministries.

Worship in Spirit and in Truth

Developing a lifestyle and a ministry of exalting God

God seeks for people who will worship him in spirit and in truth. Worship is an important part of church life. It is also a vital part of relationship with God.

Marriage and Family

Transforming the personal life of the leader

In this module, husband-and-wife faculty teams help leaders to understand God's life priorities: The Lord first, family second, then ministry. Spouses and children are invited to attend. The session becomes a mini family-camp; in addition to solid teaching and rich fellowship, it provides much-needed rest and refreshment for tired ministry families.

Leading Amidst Persecution

Responding to the societal context from a place of faith

Equipping leaders with a resilient faith and faithful witness in the face of suffering and persecution.

2 REPRODUCING OTHER LEADERS

Training and Developing Leaders

Selecting and developing others to lead with you

Developing leaders is one of the main tasks of the pastor. His job is to equip the people so that they can do the work of the ministry, grow the church, and impact their communities for Christ.

Disciple-making

Emulating Jesus' method of reproducing disciples

Jesus told us to make disciples. Virtually every component of a healthy church depends on making true disciples.

Spiritual Gifts

Unleashing others to serve effectively

People ministering out of their spiritual gifts is a key to a healthy, vibrant church.

3 MULTIPLYING CHURCHES

Leading Your Church to Growth

Building healthy churches

Growing churches have strong leaders who are able to lead the church to growth.

Missional Small Groups

Cultivating groups to experience biblical community and outreach

Missional small groups are a proven means of fostering evangelism, discipleship, leadership training and shepherding.

Church Planting and Multiplication

Reproducing witnessing communities

Planting multiplying churches is one of the fastest and best ways to reach people for Christ.

4 EXPANDING THE KINGDOM

Evangelism

Teaching others to effectively share the Good News

God cares about the lost and has given us the assignment of reaching them.

Christianity, Culture, and Contextualization

Contextualizing the message and the method

The gospel is more readily understood and received when it is contextualized.

Generosity

Modeling our complete trust in God

The generosity of God is displayed through the generosity of God's people.

Social Dynamics

Contextualizing issues such as poverty, war, and emotional health

This session addresses social dynamics distinctive to each country and context.

World Mission

Fulfilling the Great Commission

The Great Commission calls us to make disciples of all nations.
